

DHCS: Promoting Quality & Equity Through Bold Goals

April 27, 2023

**Priya Motz, DO, MPH, Quality & Health Equity Transformation
Branch Chief, *Quality & Population Health Management***

Objectives

- » Comprehensive Quality Strategy Overview
- » Bold Goals Breakdown
- » Infrastructural Change
- » Collaboration & Discussion Questions

Vision

QUALITY STRATEGY GOALS

Engaging members as owners of their own care

Keeping families and communities healthy via prevention

Providing early interventions for rising risk and patient-centered chronic disease management

Providing whole person care for high-risk populations, addressing social drivers of health

QUALITY STRATEGY GUIDING PRINCIPLES

- » Eliminating health disparities through anti-racism and community-based partnerships
- » Data-driven improvements that address the whole person
- » Transparency, accountability and member involvement

Bridging & Aligning Quality

QUALITY AND HEALTH EQUITY FUNCTIONS

Medi-Cal
Managed Care

Drug Medi-Cal
Organized
Delivery

Medi-Cal
Fee-For-Service

Specialty Mental
Health Services

Value-Based
Payments

Home and
Community-Based
Services

Dental Services

Medi-Cal Rx

Other Programs

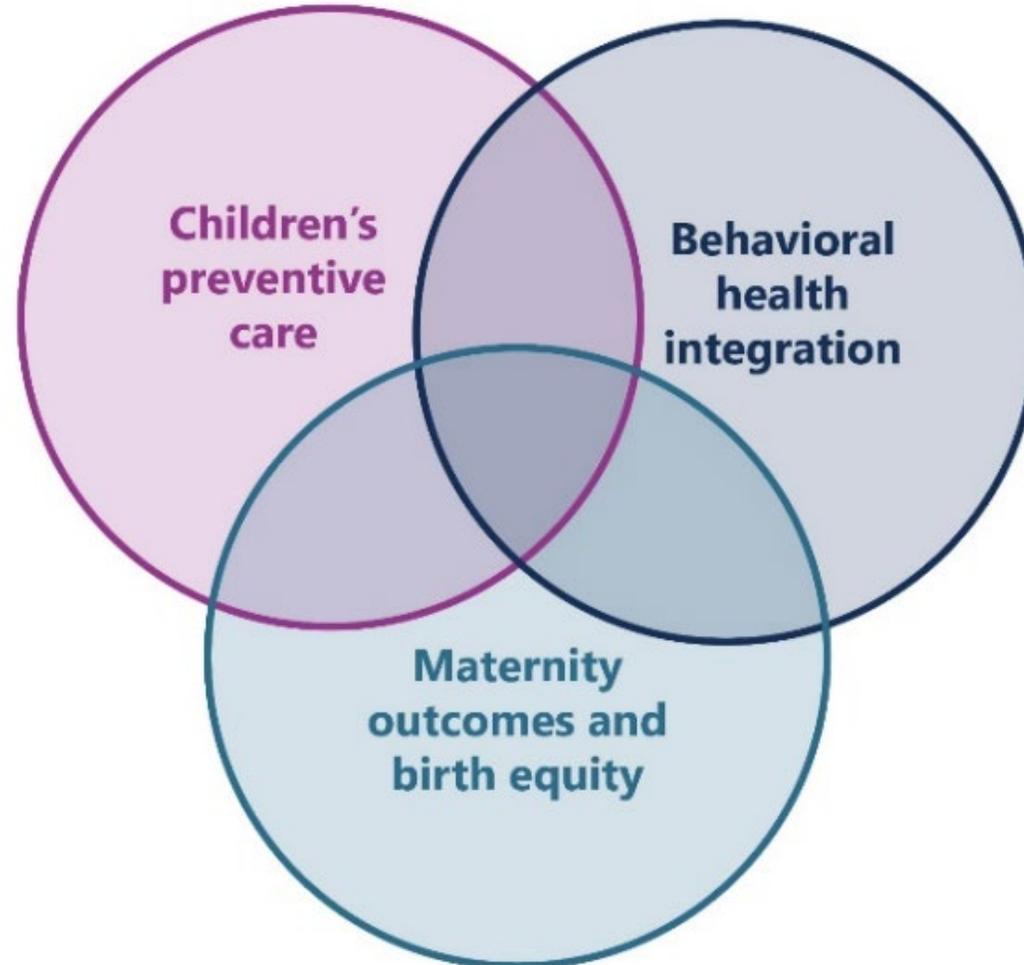

SUPPORT SERVICES

- » Data analytics
- » Information Technology
- » Communications
- » Human Resources
- » Workforce Development
- » Legal

Continuous Quality Improvement Cycle

Clinical Focus Areas

QUALITY/HEALTH EQUITY IMPROVEMENT FRAMEWORK

Driving Change

- » Focused initiatives to drive transformation/innovation
- » Innovative metrics, process measures, bundles
- » Incentives if met (financial or otherwise)
- » Example uses: CalAIM incentive programs, COVID19 vaccine incentive program, QIP optional metrics

Foundation:

- 
- » Creates a standard across programs/plans
 - » Fundamental outcome/access measures
 - » Minimum performance levels & improvement targets
 - » Penalties if not met
 - » Example uses: QIP required metrics, MCAS, auto-assignment algorithm

Specific Measures

Infant, child, and adolescent well-child visits
Childhood and adolescent vaccinations

Prenatal and postpartum visits
C-section rates

Prenatal and postpartum depression screening
Adolescent depression screening and follow up

Follow up after ED visit for SUD within 30 days
Depression screening and follow up for adults
Initiation and engagement of alcohol and SUD treatment

Infant, child, and adolescent well-child visits
Childhood and adolescent vaccinations
Blood lead and developmental screening
Chlamydia screening for adolescents

BOLD GOALS: 50x2025

STATE LEVEL

Close racial/ethnic disparities in well-child visits and immunizations by 50%

Close maternity care disparity for Black and Native American persons by 50%

Improve maternal and adolescent depression screening by 50%

Improve follow up for mental health and substance use disorder by 50%

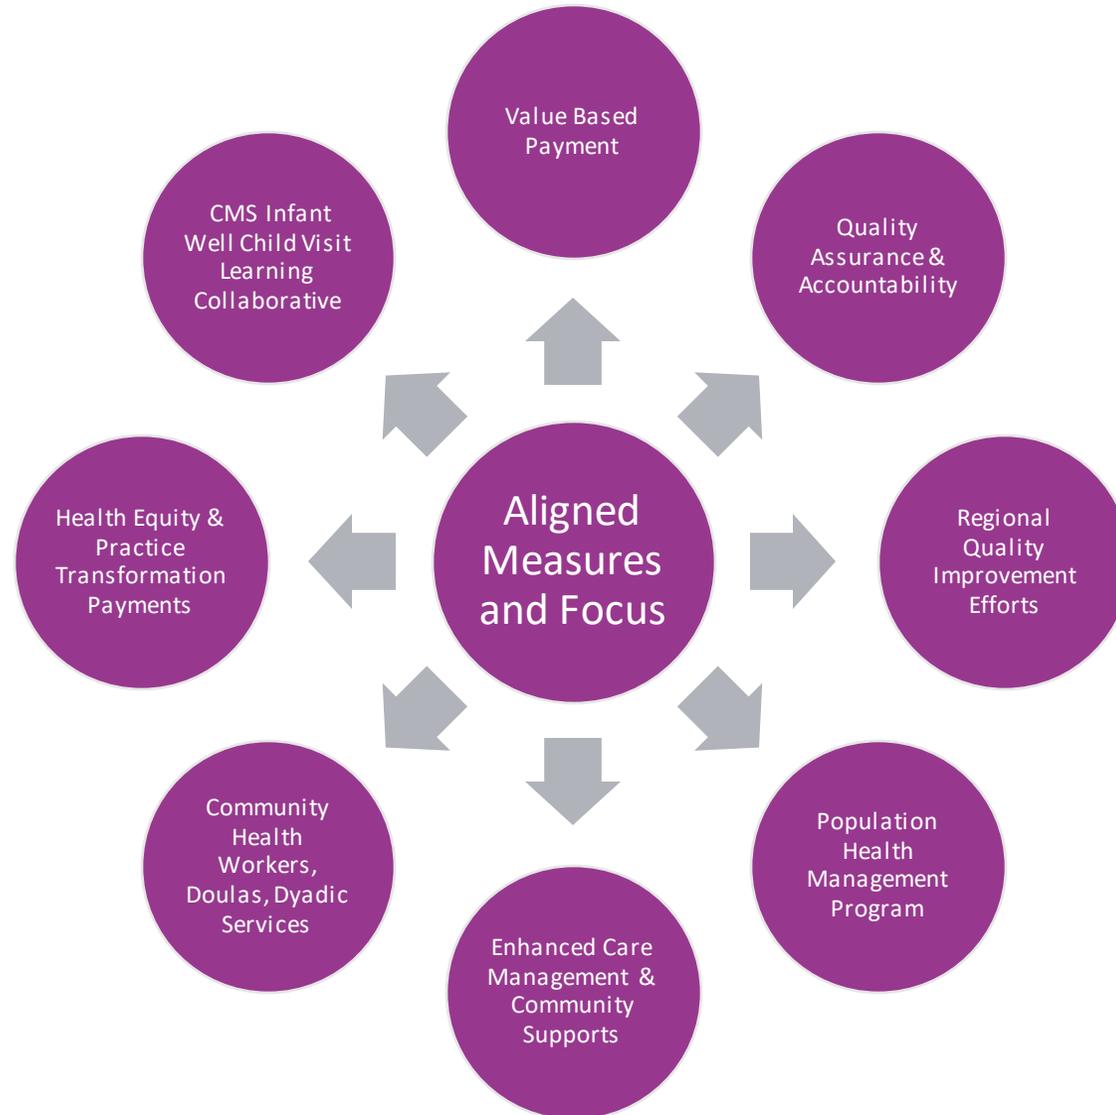

Ensure all health plans exceed the 50th percentile for all children's preventive care measures

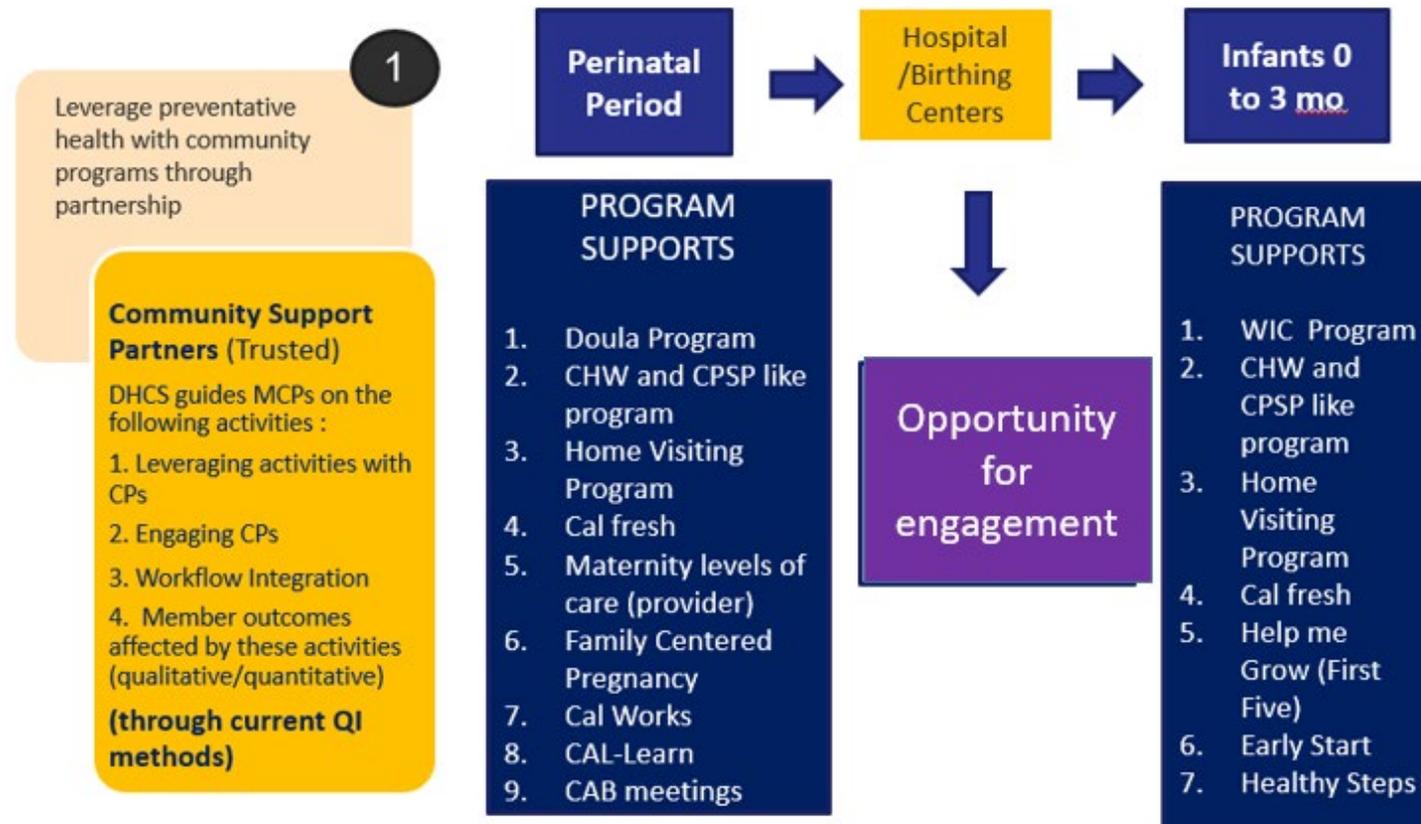

| Domains | Measures (MY 2023) |
|---------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <h2 data-bbox="137 179 749 315">Child & Adolescent Preventative Health</h2> | <ul data-bbox="1090 179 2390 793" style="list-style-type: none"> • Child and Adolescent Well-Care Visits (WCV)* • Childhood Immunization Status: Combination 10 (CIS-10)* • Developmental Screening in the First Three Years of Life (DEV) • Immunizations for Adolescents: Combination 2 (IMA-2)* • Lead screening in Children (LSC) • Topical Fluoride for Children (TFL-CH) • Well-Child Visits in the First 30 Months of Life – Well-Child Visits in the First 15 Months (W30)* • Well-Child Visits in the First 30 Month of Life - Well-Child Visits for Age 15 Months - 30 Months (W30)* |
| <h2 data-bbox="137 893 772 958">Reproductive Health</h2> | <ul data-bbox="1090 893 2390 1279" style="list-style-type: none"> • Chlamydia Screening in Women (CHL) • Prenatal and Postpartum Care: Postpartum Care (PPC-Pst)* • Prenatal and Postpartum Care: Timeliness of Prenatal Care (PPC-Pre)* • Postpartum Depression Screening and Follow Up (PDS-E) • Prenatal Depression Screening and Follow Up (PND-E) • Prenatal Immunization Status (PRS-E) |

| Domains | Measures (MY 2023) |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Behavioral Health | <ul style="list-style-type: none"> • Follow-Up After Emergency Department (ED) Visit for Mental Illness – 30 days (FUM)* • Follow-Up After ED Visit for Substance Abuse – 30 days (FUA)* • Depression Remission or Response for Adolescents and Adults (DRR-E) • Depression Screening and Follow-Up for Adolescents and Adults (DSF-E)* • Pharmacotherapy for Opioid Use Disorder (POD)* |
| Chronic Diseases | <ul style="list-style-type: none"> • Comprehensive Diabetes Care: HbA1c Poor Control (>9.0%) (CDC-H9)* • Controlling High Blood Pressure (CBP)* • Asthma Medication Ratio (AMR)* |
| Cancer Prevention | <ul style="list-style-type: none"> • Breast Cancer Screening (BCS)*—ECDS/Admin • Cervical Cancer Screening (CCS) • Colorectal Cancer Screening (COL)* |

Multi-Pronged Strategy

Improving Preventive Services Utilization & Performance Measures

What We Need

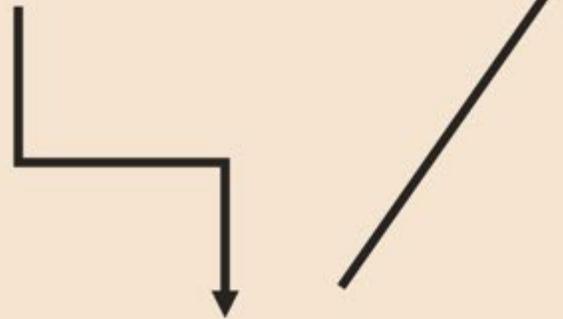

1

Leverage preventative health with community programs through partnership

Community Support Partners (Trusted)

DHCS Monitors MCPs for following measures:

1. Leveraging activities with CPs
2. Engaging CPs
3. Workflow Integration
3. Member outcomes affected by these activities (qualitative/quantitative) (through current QI methods)

NEED A SEAMLESS CONNECTION FROM ONE RESOURCE TO THE NEXT

What specific component in community programs connect the members to their providers?

1. WIC clinic - assessment of nutrition risk – BMI and iron level component
2. CAL learn /CAL-Works – pregnant under the age of 19

Improve Preventative Services Utilization and Performance Measure Benchmarks

Affects the following Domains:

1. Children
2. Reproductive
3. Maternal
4. Cancer Screening
5. Psychotropic and Opioid Management
6. Behavioral
7. Long Term

2

Family / Dyad- based activities/interventions

Family Unit Intervention (trusted)

DHCS monitors MCPs for the following measures:

1. Family unit engagement activities and progress
2. Improving Referral Structures for easy care access
3. Local preventative care and coordination activities

(through current QI methods)

**Postpartum and Infants
0 to 3 mo**

PROGRAM SUPPORTS

1. WIC Program
2. CHW and CPSP like program
3. Home Visiting Program
4. Cal Fresh
5. Help me Grow (First Five)
6. Early Start
7. Healthy Steps

Postpartum support lacking and only public health county based programs exist

PMAD blue dot program , Father Corps (Alameda county)

2

Family / Dyad- based activities/interventions

Family Unit Intervention (Trusted)

DHCS monitors MCPs for the following measures:

1. Family unit engagement activities and progress
2. Improving Referral Structures for easy care access
3. Preventative care and coordination activities

(through current QI methods)

Postpartum and 0 to 3 mo.

Data support: Are hard-to-reach members (frequent gap in care appearances) receiving ECM or CM?

CHW Utilization: Specific wrap around care approach

Bundling of measures: Orchestrated approaches that allow members to seek and receive preventative care

QUALITY/HEALTH EQUITY IMPROVEMENT FRAMEWORK

Driving Change

- » Focused initiatives to drive transformation/innovation
- » Innovative metrics, process measures, bundles
- » Incentives if met (financial or otherwise)
- » Example uses: CalAIM incentive programs, COVID19 vaccine incentive program, QIP optional metrics

Foundation:

- » Creates a standard across programs/plans
- » Fundamental outcome/access measures
- » Minimum performance levels & improvement targets
- » Penalties if not met
- » Example uses: QIP required metrics, MCAS, auto-assignment algorithm

Leverage Preventative Health with Community – Based Programs

Whole-person care

Spread of Best Practices

Collaboration across Delivery systems

Discussion Questions

- » How is your organization aligning efforts with the State's identified clinical focus areas and health equity goals?
- » How are you driving whole-person care for Medi-Cal Members?
- » What are some areas the State can focus to achieve the Bold Goals?
- » How can we collaborate to align our focus areas with your organization's in promoting higher quality and equitable services?

Questions?
